

THE HOME FIRES
BRAAI

We make the difference!

HOME FIRES BRAAI AND FIREPLACE MANUFACTURER

The HOME FIRES Company Profile

From its humble beginnings as a one-man business, operating from a small factory in Worcester in 1983, Home Fires has developed into a well-established organization and a market leader in the development of fireplace and braai products. The upgrading of production machinery and equipment and regular injections of operating capital has facilitated penetration into the export market.

The local market is served through a growing network of distributors who offer specialised consultation services. Home Fires is a family business, which is run by a qualified management team, backed by a stable track record of 14 years' business experience. The Company's top quality products and friendly service is complemented by excellent after-sales service, as well as expert technical advice.

Home Fires currently sets the trend of the quality and new design of fireplaces and braais, some of which are patented. All products are stringently tested for durability and effectivity and are confidently guaranteed for 15 years. Further to this, the products can successfully be used in any smoke-free area.

The HOME FIRES Mission Statement

Home Fires strives to manufacture braai and fireplace products of distinction, which will provide an age-old homeliness, a cosy ambience of happy smiles and home entertainment at its best. Through our continued commitment to improve our high quality products and our outstanding client service, we aim to bring to everyone, not only a feeling of warmth and relaxation, but by appealing to all our senses, a feeling of being down to earth – a part of nature.

The HOME FIRES Vision

To become the most sought after supplier, locally and internationally of fireplace and braai products, on behalf of our excellent service, ethics and superior product.

OUR BRAAIS:

ADVANTAGES OF A HOME FIRES BRAAI

IT IS MOST IMPORTANT TO READ THE DETAILED INFORMATION AND INSTALLATION INSTRUCTIONS SUPPLIED WITH EVERY UNIT!

- Only "A" – grade hot rolled mild steel of 3mm thickness is used for fire boxes, which ensure a long lasting product and peace of mind.
- Further benefits of this unique braai is that it enables one to do conventional grilling, bake bread, prepare stir-fry dishes, do a traditional potjie kos, smoke meat or fish, or even spit-roast the occasional leg of lamb using the heavy duty rotisserie option.
- Most of the Braais are fitted with an ember maker for the quick and easy making of embers, which allows braaing within 15 minutes. This unique ember maker concept is a feature originally designed by Home Fires which will give you much pleasure. This unit makes kindling a fire an easy task. It provides you with a continuous flow of embers and you have the enjoyment of a fire for the full duration of your braai process.
- You can use your braai unit as a fireplace to heat your indoor entertainment area when it is equipped with convection ducts or with a chimney damper.
- All 800, 1000, 1200 & 1500 models have a top door as well as a bottom door that serves as a convenient table or worktop.
- All braais feature height adjustable grills.
- A wide variety of accessories are available that enables creative barbecuing.
- Most of the braais feature a 220V light fitting on the inside to provide enough light even for use at night.
- Most of the braais feature a movable ember maker, which enables the user to have different configurations with various accessories.

Whilst every endeavour will be made to supply the goods illustrated in this catalogue, any photograph, description, specification or illustration generally represents Home Fires' goods offered. They do not constitute a sale by description. Home Fires reserves the right to supply similar but not identical goods to those illustrated.

HOME FIRES BRAAI ACCESSORY RANGE

The spit braai enables you to spit-roast a lamb, piglet or chicken and to operate a rotating grid for meat or toast. You can also have a normal braai in this unit.

A potjie together with a bread oven is another of the many combinations.

The stir-fry plate and grid combination is ideal for preparing breakfast, bacon, onions and eggs in the plate and sausage on the grid.

The removable rotisserie is battery or mains operated and is ideal for chicken or leg-of-lamb.

The grid (or any other) combination with the slide in gas braai allows you to have that spur-of-the-moment gas braai or small charcoal braai, or even both at the same time should you wish. Slide the gas unit out to fully convert your braai to a wood, charcoal or briquette burning unit.

Slide the ember maker to the middle of your de-luxe braai and you can perform two functions simultaneously. Grilling on two different levels simultaneously shown here.

A full-length grid enables you to use the spit braai unit as a normal braai with or without all the other accessories. Shown here is a rotating grid and stirfry plate combination.

The braai has a neat appearance when the doors are in the closed position and they protect your braai against dust, rain and pets (the cat on your grill).

Slide in gas units are available in various sizes in order to switch your braai unit from gas to fire and back. Either half, three quarter or full gas conversions are possible
